

Scripture

Cite scripture parenthetically. Include abbreviation of translation in first use only, e.g., (Gen 1:1 ESV). Use full name of biblical books in text and abbreviations in citations, e.g., Exodus 1:1 (Exod 1:1). Biblical chapters and verses are separated by colons, chapters by semicolons, and verses by commas (Lev 1:1, 2; 16:1; Num 5; 12). When citing same biblical book as previous citation do not repeat book name (2:1). Do not cite Bible in bibliography.
